Profile

I am a 24 year old Computer Science Graduate, Aspiring to become a Front - End Web Developer.

Despite of graduating in 2019, I have given myself some time to try and explore different things, and see what interests and motivates me in the long run. And in meantime, I have figured out that Web Development is the thing for me and started to learn web technologies in the recent past.

Educational Qualifications

Bachelor's Degree In Computer Science

Siddharth Institute of Engineering & Technology
| 2015 - 2019 (Puttur)

Intermediate

Vikram Junior College | 2013 - 2015
(Srikalahasthi)

High School (SSC)

MGM E.M School | 2012 - 2013 (Srikalahasthi)

Final Word

I can confidently say that, I am a self taught learner and all the skills, I have developed recently was purely out of my passion and willingness to get into the software industry.

And with that being said, I will not shy away from learning new skills and thus improving myself and at the same time being useful and productive to the company as well.
